

COMMUNITY CARE
PHYSICIAN NETWORK

Bringing Value Home

For Patients, Clinicians
& North Carolina

Why CCPN?

Community Care Physician Network (CCPN) is a clinically integrated network committed to improving the quality of care and support for North Carolina's independent clinicians as the state's health care delivery system transitions to value-based care.

With more than 2,500 primary care physicians in over 850 practices, CCPN is North Carolina's largest independent network.

CCPN's Board of Managers and Co-Presidents are physicians who work in independent practices from the mountains to the coast. They understand the values and needs of independent clinicians across North Carolina.

As North Carolina moves forward with Medicaid Transformation and the entire health care system moves towards value based reimbursement, there will be many opportunities and challenges for independent physicians.

As you prepare for these changes, CCPN has the infrastructure and expertise in place to support you and help ensure that your patients continue to receive high quality care.

Through our local care managers and results-focused analytic tools, you will have the information you need to thrive in the new health care environment.

Success at Every Step

As members of CCPN, clinicians work closely with CCNC care managers and practice support staff who assist with:

Streamlining workflows	Improving medication compliance
Driving quality improvement initiatives	Engaging physician leaders
Managing transitions in care	Integrating behavioral care

Why Now?

CCPN, in collaboration with Community Care of North Carolina (CCNC), brings over 20 years of care management and practice support experience to you and your patients.

Make a Difference Where It Matters by Bringing CCPN to Your Members

The key to making high-quality and cost-effective healthcare available is having a primary care network that is optimized for peak performance. This is what CCPN delivers.

Provider Services

- Comprehensive practice support from local Provider Relations Representatives
- Advanced Medical Home (AMH) support to ensure practices understand initiatives & meet requirements

Care Management

- Local, licensed, and trained care managers who work closely with patients to reach care plan goals and keep clinicians informed on patients' progress
- Focus on transitional care for patients at risk of re-admission and other high risk patients

Practice PerfectSM

- Distills complex information and identifies actions that boost quality and improve performance
- Analyzes cost, utilization, and disease burden of your Medicaid patient panel and monitors how well your practice is meeting quality measures

What We Do

Ready to work together with the **largest clinically integrated network of independent clinicians in North Carolina** to deliver high quality care and find success in value-based reimbursement? Contact CCPN to see how we can make this happen together.

About Community Care Physician Network

CCPN is a physician-led, clinically-integrated network that helps independent primary care physicians deliver high-quality, cost-effective care. CCPN's experience and infrastructure turn data into actionable insights and drive quality improvement, measurement, and reporting. Through CCPN, physicians work with peers to improve patient care and coordinate care across conditions, providers, settings and time. CCPN helps you better manage your complex patients while hitting quality targets under value-based reimbursement arrangements.
