COVID-19 Webinar for Medicaid Providers

March 19th, 2020

Shannon Dowler, MD
Chief Medical Officer, NC Medicaid

Tom Wroth, MD
President, Community Care of North Carolina

Hugh Tilson, JD, MPH
Director of North Carolina AHEC

RCC (Relay Conference Captioning)
Participants can access real-time captioning for this webinar here:
Agenda

- Welcome
- Webinar logistics
- Overview of collaboration with NC Medicaid, CCNC and AHEC
- Overview of Medicaid Policy Changes
- Recommendations for documentation and workflow changes
- DHB Update
- Where to Get Information and Help
Webinar Logistics

RCC (Relay Conference Captioning)
Participants can access real-time captioning for this webinar here:

Joint Effort with NC Medicaid, CCNC & AHEC

Weekly webinar series:
Thursdays at 5:30pm

NC Medicaid webinar on Medicaid policy changes

CCNC/AHEC webinar on implementation of changes
CCNC/AHEC Website

Links for NCDHHS info on:

- General information on COVID-19
- Medicaid coding changes and suggestions for implementing
- Guidance on workflow changes
- Testing resources
NCDHHS Response Framework

For your practice’s response, are you thinking about:

**Stuff**  
(PPE, tests, etc.)

**Staff**  
(contingency, safety, etc.)

**Space**  
(clean vs. sick, waiting areas, disinfecting, etc.)

**Standards of care**  
(protocols for transfers, triage, etc.)
Medicaid Policy Changes as of March 13, 2020

- No changes to home visit or co-pay policies
- ICD-10 Dx Code – Z20.828
- Telephonic visit codes
  - CR Modifier!
- Lab codes
- Pharmacy codes
- DME Requirements waived

Two-pager overview located here: http://ccnc.care/covidcodesummary
Telephonic Visit Codes Overview

- **Modifier CR must be used.** This bypasses time limitations (7 day and 24 hour) and ensures payment and compliance with Medicaid auditing requirements.

- These codes are intended for telephonic/audio visits. However, providers may use these codes when using more advanced, video-enabled technology until telehealth service provision is approved. More specific guidance is forthcoming.

- Provider may be remote (not in the office) while patient is home-based instead of another healthcare facility.

- Patients are not subject to copays or out of pocket costs.

- For established patients only, these may not be used with new patients.

**Telephonic Code Rate List:** [https://files.nc.gov/ncdma/covid-19/COVID19-Telephonic-Codes-Rate-List-20200317.pdf](https://files.nc.gov/ncdma/covid-19/COVID19-Telephonic-Codes-Rate-List-20200317.pdf)
Telephonic Visit Codes (non-FQHC/RHCs)

Visits with established patients actively experiencing mild COVID-19 symptoms (fever, cough, shortness of breath):

<table>
<thead>
<tr>
<th>Medicaid Billing Code</th>
<th>Criteria for Use</th>
<th>Who Can Bill?</th>
</tr>
</thead>
<tbody>
<tr>
<td>G2012</td>
<td>5-10 minutes of telephonic medical discussion</td>
<td>Physician or Advanced Care Provider who can report E/M services. Not for use in FQHCs or RHCs.</td>
</tr>
</tbody>
</table>

Routine, uncomplicated follow-up visits with established patients for chronic disease management (no COVID-19 symptoms):

<table>
<thead>
<tr>
<th>Medicaid Billing Code</th>
<th>Criteria for Use</th>
<th>Who Can Bill?</th>
</tr>
</thead>
<tbody>
<tr>
<td>99441</td>
<td>5-10 minutes of telephonic medical discussion</td>
<td>Physician or Advanced Care Provider who can report E/M services. Not for use in FQHCs or RHCs.</td>
</tr>
<tr>
<td>99442</td>
<td>11-20 minutes of telephonic medical discussion</td>
<td></td>
</tr>
<tr>
<td>99443</td>
<td>21-30 minutes of telephonic medical discussion</td>
<td></td>
</tr>
</tbody>
</table>

Remember the CR Modifier!
### Telephonic Visit Codes – BH (non-FQHC/RHC)

Visits with established patients for behavioral health assessment management:

<table>
<thead>
<tr>
<th>Medicaid Billing Code</th>
<th>Criteria for Use</th>
<th>Who Can Bill?</th>
</tr>
</thead>
<tbody>
<tr>
<td>98966</td>
<td>5-10 minutes of telephonic medical discussion</td>
<td>Licensed non-physician behavioral health professionals (LCSW/A, LPC/A, LMFT/A, LPA, LCAS/A, Ph.D.). <strong>Not for use in FQHCs or RHCs.</strong></td>
</tr>
<tr>
<td>98967</td>
<td>11-20 minutes of telephonic medical discussion</td>
<td></td>
</tr>
<tr>
<td>98968</td>
<td>21-30 minutes of telephonic medical discussion</td>
<td></td>
</tr>
</tbody>
</table>

*Remember the CR Modifier!*
# Telephonic Visit Codes for FQHC/RHC providers

## Visits with established patients by FQHC and RHC providers:

<table>
<thead>
<tr>
<th>Medicaid Billing Code</th>
<th>When to Use</th>
<th>Criteria for Use</th>
<th>Who Can Bill?</th>
</tr>
</thead>
<tbody>
<tr>
<td>G0071*</td>
<td>Used for established patients actively experiencing mild COVID-19 symptoms prior to going to ED, urgent care, etc. or Used for established patients needing routine, uncomplicated follow-up for chronic disease who are not experiencing COVID-19 symptoms.</td>
<td>5+ minutes of a virtual (not face-to-face) communication between an RHC or FQHC practitioner and RHC or FQHC patient.</td>
<td>Physician or other qualified health care professional who can report E/M services, as well as PhD Psychologists and LCSWs. For use in FQHCs and RHCs only.</td>
</tr>
</tbody>
</table>

**FQHC/RHCs can serve as distant sites for telehealth and should bill:**
- Medical core for telehealth – T1015-GT-CR
- BH core for telehealth – T1015-HI-GT-CR
Documentation Guidelines & Best Practices

- Privacy/HIPAA – 2 patient identifiers, consider documenting consent, consider documenting who is present during discussion

- Telephonic codes are based on time spent during discussion

**Minimum documentation requirements:**

1. Chief complaint or reason for telephone visit
2. Relevant history, background, and/or results
3. Assessment
4. Plan and next steps
5. Total time spent on medical discussion
Case Examples
Case Example: 68yo with fever and cough

Visits with established patients actively experiencing mild COVID-19 symptoms (fever, cough, shortness of breath):

<table>
<thead>
<tr>
<th>Medicaid Billing Code</th>
<th>Criteria for Use</th>
<th>Who Can Bill?</th>
</tr>
</thead>
<tbody>
<tr>
<td>G2012</td>
<td>5-10 minutes of telephonic medical discussion</td>
<td>Physician or Advanced Care Provider who can report E/M services. <strong>Not for use in FQHCs or RHCs.</strong></td>
</tr>
</tbody>
</table>

*Remember the CR Modifier!*
G2012 Case: 68 yo with fever and cough

Phone Note
Call from Patient
Summary of Call: Identified pt. with 2 patient identifiers and pt. consents to telephonic visit.

68 yo calling with fever and cough × 48 hours.
Fever to 101 last pm.
Cough non productive, keeps her up at night.
No SOB or DOE.
+ body aches, + fatigue

No sick contacts, No recent travel
PMH: Diabetes

Assessment / Plan:
68 yo with influenza like illness
Recommend testing for flu and if negative for COVID-19
Will come to clinic at 10:20 and be met in car and given mask
She will be routed through side door to sick area of clinic for assessment and testing

Time: 9 minutes

...electronically signed by: Thomas Wroth MD at March 15, 2020 3:10 PM
Case Example: 35 yo calling for allergy med refill

Routine, uncomplicated follow-up visits with established patients for chronic disease management (no COVID-19 symptoms):

<table>
<thead>
<tr>
<th>Medicaid Billing Code</th>
<th>Criteria for Use</th>
<th>Who Can Bill?</th>
</tr>
</thead>
<tbody>
<tr>
<td>99441</td>
<td>5-10 minutes of telephonic medical discussion</td>
<td>Physician or Advanced Care Provider who can report E/M services. <strong>Not for use in FQHCs or RHCs.</strong></td>
</tr>
<tr>
<td>99442</td>
<td>11-20 minutes of telephonic medical discussion</td>
<td></td>
</tr>
<tr>
<td>99443</td>
<td>21-30 minutes of telephonic medical discussion</td>
<td></td>
</tr>
</tbody>
</table>

*Remember the CR Modifier!*
99442 Case: 35 yo calling for allergy med refill

Phone Note
Outgoing Call
Summary of Call: Patient was identified with 2 patient identifiers and agrees to telephonic visit.

35 yo with PMHx significant for seasonal allergies and hypertension being evaluated telephonically for routine follow up. Unable to be scheduled in clinic b/c of coronavirus outbreak. She feels well and has no complaints. Wants medication refills.

1. Seasonal Allergies: 2 days ago, began having sneezing and itching in her eyes, has had clear rhinorhea and congestion. No cough. No fever. Gets same sx's every spring. Usually takes loratadine and fluticasone nasal spray.

3. Preventive Care: Pap done 12/19, normal.

Assessment/Plan:
1. Seasonal allergies: Refill loratadine and fluticasone to be taken per med list. Discussed avoidance of triggers. RTC if not improving.

2. Hypertension: Appears controlled by home bp values. Unable to assess BP in clinic. Will refill Chlorthalidone for now and make follow up for 2-3 months to review bp log and assess further in clinic.

Time of telephonic visit: 14 minutes

...electronically signed by: Thomas Wroth MD at March 15, 2020 3:22 PM

99442 coded with CR Modifier
# Case Example: Patient in FQHC – Parent calling for ADHD refill

## Visits with established patients by FQHC and RHC providers:

<table>
<thead>
<tr>
<th>Medicaid Billing Code</th>
<th>When to Use</th>
<th>Criteria for Use</th>
<th>Who Can Bill?</th>
</tr>
</thead>
<tbody>
<tr>
<td>G0071</td>
<td>Used for established patients actively experiencing mild COVID-19 symptoms prior to going to ED, urgent care, etc. <strong>or</strong> Used for established patients needing routine, uncomplicated follow-up for <em>chronic disease</em> who are not experiencing COVID-19 symptoms.</td>
<td>5+ minutes of a virtual (not face-to-face) communication between an RHC or FQHC practitioner and RHC or FQHC patient</td>
<td>Physician or other qualified health care professional who can report E/M services, as well as PhD Psychologists and LCSWs. <em>For use in FQHCs and RHCs only.</em></td>
</tr>
</tbody>
</table>

**FQHC/RHCs can serve as distant sites for telehealth and should bill:**

- Medical core for telehealth – T1015-GT-CR
- BH core for telehealth – T1015-HI-GT-CR
Patient in FQHC: Parent calling for ADHD refill

Phone Note
Outgoing Call
Summary of Call: Mother of patient consents to telephonic visit and patient identified with 2 patient identifiers.
Cc: ADHD follow up and medication refills

History: 7 yo with history of ADHD dx’d last year in first grade. Per mom, he has been doing well at home and at school. School is closed because of Coronavirus and mom wants to continue meds at home.
Per teacher conference, he has shown greater confidence in social interactions and is participating more in class activities. Received all “S’s” for his grades. At home, no recent problems with behavior.

Vanderbuilt assessment completed in the fall.

Continues on methylphenidate 5 mg bid. No medication side effects including no sleep problems. Taking consistently.

Assessment and Plan:
ADHD on stimulant medication
Doing well in school and no recent behavioral problems at home
No medication side effects and no evidence of misuse.

Refill Methylphenidate per med list X 1 month
Follow up in 2 mo at end of school year to create plan for the summer

Time spent: 11 minutes

G0071 Coded with CR Modifier
Medical core for telehealth – T1015-GT-CR
Case Example: 56yo with Depression

Visits with established patients for behavioral health assessment management:

<table>
<thead>

</tbody>
</table>

*Remember the CR Modifier!*
BH Code Example: 56 yo with Depression

Piedmont Health Services, Inc
Phone Note

Phone Note
Outgoing Call
Summary of Call: Patient was identified with 2 patient identifiers, is in a private space, and agrees to telephonic visit

Problem: 56 yo with history of depression being evaluated telephonically for routine follow-up. Unable to be scheduled in clinic b/c of Coronavirus outbreak. He reports feeling worse than normal and stressed about the Corona Virus outbreak. Client reports a lack of productive sleep for the last 5 days. Reports watching ongoing news related to outbreak and worry over his inability to help family living out-of-state. He also takes fluoxetine 40mg/day for depression and mild anxiety and has not missed any doses but requires a refill.

Intervention: Discussed patient’s positive preparation steps for isolation during outbreak and ways to think about moderating news to twice a day to reduce stress triggers. Discussed ways to improve sleep including reviewing his sleep hygiene routines which have worked well in the past. The PHQ-9 was re-administered over the phone due to report of stress. No change in score (14/27) and patient reports no risk of self-harm.

Effectiveness: The patient reported feeling more confident about his ability to self-manage his depression and anxiety following the interventions described above. He plans to reduce his news intake to two times a day and that the sleep hygiene discussion reminded him of helpful steps he might be overlooking during this stressful time.

Plan: The writer will notify psychiatry for the patient’s refill and inquire about a 90-day fill which is now allowable. The writer will check-in with the patient in one week on March 24th at 9:00 AM or the patient may contact the office if needed prior to the 24th.

Time of telephonic visit: 22 minutes
DHB Updates
Phase 2 Initiatives: Codes activated 3/23/30

- **Modifications** of personal care, private duty nursing, and office visit limits
- **Remove Behavioral Health edits from Pharmacy**
- **Additional virtual and telehealth virtual care**
  Refers to non-visual communications patient: provider for evaluation and management services
  - MD/PA/FNP/CNM to MD Consultation 99446-99449
  - Patient Portal Communication 99421-99423
- **Broad expansion of telehealth and telepsychiatry**
  - Refers to audio + visual communications in two-way real-time
  - Wave 1 Includes Medical and Behavioral (3/23/30)
  - Wave 2 Includes Specialized Therapies (PT/OT/ST) and Dental (3/30/30)
  - Wave 3 Includes Diabetic Educators, Clinical Pharmacists, LEA’s, CDSA’s, Optometry (4/7/20)
MD/PA/FNP/CNM to MD Consultation

Interprofessional telephone/internet/EHR assessment and management (about $15-61)

- Billing provider must document the verbal and written encounter in the Electronic Health Record
- CR modifier to eliminate restrictions for 14 days pre- and post-
  - 99446 5-10
  - 99447 11-20
  - 99448 21-30
  - 99449 >30
Portal Communication

On-Line Digital E&M (about $11-35)

- Established patients only
- Up to 7 days (cluster correspondence based on cumulative time)
  - 99421 5-10 minutes
  - 99422 11-20 minutes
  - 99423 21+ minutes
- Can occur in the same patient with multiple specialists in the same week
# Overview of Telehealth Coverage Changes

<table>
<thead>
<tr>
<th>Change</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Originating Site</strong></td>
<td>Allows telehealth to be provided in a patient home or non-traditional site of service (previously narrow)</td>
</tr>
<tr>
<td><strong>Distant Site</strong></td>
<td>Allows all enrolled medical providers to provide telehealth services (previously consultative)</td>
</tr>
<tr>
<td><strong>Prior Authorization</strong></td>
<td>Removes requirement for prior authorization to receive telehealth services</td>
</tr>
</tbody>
</table>
| **Eligible Providers**                                                | Phase 1: Expands to include primary care (all MD/PA/FNP/CNM) and behavioral health services (PsyD, LCSW/As, LPC/As, LCAS)  
Phase 2: Expands to include dental, clinical pharmacists, specialized therapies, diabetic educators |
| **Covered Services**                                                  | Allows broad utilization including video cell technology  
Allows for parity payments |
| **HIPAA Compliance**                                                 | Allows temporary flexibilities on certified HIPAA compliant technology in emergency circumstances |
| **FQHC/RHC**                                                          | Allows FQHCs and RHCs to bill as distant sites (CMS does not allow this for Medicare and previously not covered) |
Phase 3 Initiatives

Work is underway considering

- **Eligibility considerations** (extending coverage)
- **Elimination of copays**
- **Administrative burden reduction** (broad elimination of PA’s)
- **Providing home services for prevention** (i.e. vaccines)
- **Pharmacy**
  - Update PDL to move Non-Preferred to Preferred in event of drug shortages
  - Extend provision of MAT

Where To Get Information and Help
COVID-19 Testing Resources

- Call your Local Health Department (LHD)
- Call your local hospital system – many have testing capabilities
- DPH/AHEC webinar on Fridays at 12:30pm: https://zoom.us/j/705979628

NCSLPH Testing criteria (current as of March 16, 2020)

- Have fever OR lower respiratory symptoms (cough, shortness of breath) and close contact with a confirmed COVID-19 case within the past 14 days; OR
- Have fever AND lower respiratory symptoms (cough, shortness of breath) AND negative influenza test (rapid or multiplex PCR) and no other likely diagnosis
